SUMMARY

I am an undergraduate student interested in bridging linguistics, neuroscience, and computational modeling. I am particularly interested in exploring bioinspired approaches to language cognition, especially in the context of human-robot interaction.

EXPERIENCE

ROBOPROX Women's Forum Fellow

CIIRC CTU

📅 2026 📍 Prague, Czech Republic

- Conducting neuromorphic robotics research with the Neuro-inspired Perception and Cognition group, supervised by Dr. G. D'Angelo and Dr. K. Štěpánová.
- *Talk2Look*: neuromorphic language-guided visual attention for humanoid robots.

Research Assistant

LEMCOG - UFPB

📅 Sep 2024 - 2025 🐍 Python

- Processing large-scale behavioral video datasets from Wistar mice using DeepLabCut.
- Modeling episodic memory using Keypoint Motion Sequencing (Key-MoSeq) and Python to create behavioral syllables.

Research Assistant

LACON - UFPB

📅 Sep 2024 - 2025 🐍 Python

- Collecting written linguistic data from participants using PsychoPy, Python, Flask, HTML/CSS, and JavaScript to investigate frames of reference (intrinsic/relative/absolute) in Brazilian Portuguese.

PROJECTS

Idiomas sem Fronteiras (IsF)

Andifes

📅 2025 - Present

- Delivering short-term English courses (16 hours) to support the development of the academic community within the university and across Brazil.

Student Representative

UFPB

📅 2024 - Present

- Contributing to discussions on curriculum development, policy revisions, and initiatives to improve the academic environment.
- Creating educational materials and events, including tutorials, videos, and media content.

TECHNICAL SKILLS

- **Languages:** Python, R, SQL, HTML/CSS
- **Libraries & Frameworks:** PyTorch, nnTorch, Pandas, NumPy, Matplotlib, SymPy
- **Tools:** Jupyter, Git & GitHub, Anaconda, LaTeX, Linux

EDUCATION

Bachelor in English and Linguistics

Universidade Federal da Paraíba (UFPB)

📅 2023 - 2026 📍 João Pessoa, PB, Brazil

Coursework: Linguistic Theory, Phonetics & Phonology, Pragmatics & Semantics, Applied Linguistics, Data Structures & Algorithms in Python, AI Agent Development, SQL for Data Management

COURSES (SELECTED)

- Computational Neuroscience - Neuromatch Academy (NMA), Online, 2024
- Mathematics for Data Science and Machine Learning - DeepLearning.AI, Online, 2024
- Phonetics and Phonology - Institut für Technische Akustik, RWTH Aachen / Virtual Linguistics Campus, Online, 2024
- Introduction to Psychology - Yale University, Online, 2022
